A Calico Apron and a Gingham Gown Music & Lyrics by Everett & Parker © *all rights reserved* *Gaviotti Music*

I've met a lot of girls that's true, who could thrill me through and through
From the rolling hills of Texas to the city of the Souix
But there is one I left behind, that I'm going home to find
And I know that she'll be waitin' cause she's always on my mind

In a calico apron and a gingham gown, everynight I can see her
When the sun goes down, is she thinking about me when I'm not around
In a calico apron and a gingham gown

If there's an old church bell, within a country mile
you'll hear it tell the world, we're a walkin down the aisle

I'm a stakin' a claim there, in the old home town
For a calico apron and a gingham gown.
